THE FOREIGN NEWS .- We publish a goodly portion of the news, brought by the Brittannia, to-day,-It is exceedingly interesting. The intelligence from Ireland is of the highest importance. That unhappy country appears to be no the verge of a revolution. and how soon it may break out it is impossible say .-The Government has announced its determination to use all the means in its power to prevent and suppress insurrection; meantime the arming of the peopl than at any time since the revolution.

RATES OF POSTAGE. - The Committee on Post Offices and Post Roads, have matured a bill, just such as 50 Bales 4-4 heavy Brown Sheetings, in store and for sale by [my16] OLIVER LADD. the country wants, but it has not been reported yet. and, it is said, it is getting to be too late in the session to get such a measure through from the start. -This is the fault of the committee a majority of whom have failed in their duty. Two of the committee have been compelled to do all the labor and one of those two is the member from this District. A Washington correspondent of the State Sentinel says:

"Ot the nine members of this committee on the have not manifested a very censurable neglect upon this subject-the names of these two are Daniel B. St. John, of New York, and Elisha Embree of Indi-

We are aware that Mr. Embree has devoted his whole time to this matter, and although he may be disappointed in forcing the measure through Congress this session, he will, nevertheless, receive the thanks of his constituents for his exertions in favor of a measure of such great importance to public. The friends of cheap postage will eventually succeed.

PIGEONS .- We hear that the whole face of the country in Indiana, from Corydon to Evansville, a distance of nearly two hundred miles, is covered with pigeons. Every species of grain put in the ground by the farmers is destroyed forthwith. The slughter is of course terrible. We have heard of wagon loads of pigeons sent in all directions .- Louisville Journa; of Monday.

We have heard of no Pigeons in this neighborhood and hardly think they extend their devastations so low down as this.

REVENUE OF FRANCE.-The Moniteur publishes the returns of the indirect taxes and revenues of France WHEN I advertise my stock in our Daily Journal, I am not in the habit of advertising douduring the first quarter of 1848, which amounted to ble or tribble that I have on hand, but come to the 177,964,000f. As compared with those of the corres- quantity by referring to my invoices of Goods purponding period of 1847, there was a diminution in chased East, [may 16] OLIVER LADD. 1848, of 16,310,000f.

LORD BROUGHAM DESIRING TO BE MADE A FRENCH closed to the French Minister of Justice certificates of 200 PIECES sup. American and English Prints; the mayor of Carrnes, proving that he had resided there for thirteen years, and had built and then owned there a mansion, and he demanded an act of naturalization with as little delay as possible. The Minister of Justice warned the noble Lord that in becoming a French citizen he would cease to be an Englishman, that he would be no longer Lord Brougham but citizen Brougham, and that with his title of nobility he would lose all the privileges and advantages conferred on him by British laws and usages. The Minister added that he presumed the "late Lord Chancellor" was aware of all this, but that his duty required him to give this official warning. Lord Brougham replied that he expected in becoming a French citizen to lose all his rights as a British peer in France, retaining them, however, in England. To this the Minister replied: "You cannot be an Englishman in | And many other articles which we will be happy England and a Frenchman in France. You must ne- show you by calling. The goods have been bought cessarily choose." And so the noble Lord chose to remain an Englishman.

THE HEIGHT OF MEANNESS .- Some ingenuous scamp at Cincinnati, has undertaken to counterfeit Blue Lick Water, that is strongly impregnated with sulpharetted hydrogen, by the simple process of mixing ancient eggs with water from the river. The spurious is said to be fully as agreeable as the genuine article. We can believe it, but the manufacture is a dreadfully mean business.
